

Median SigMOS: 2.922 normalized → 3.276 best → 3.701 filtered

Fixed pilot · 100 recordings per source · 800 recordings per row except the two filtered subsets

DF3 = DeepFilterNet3. Percentages indicate enhanced-audio blend; remainder is dry audio.

≥ 3.5 retains 239/800 with normalized originals; 267/800 with native originals. Filtered medians describe smaller populations.
