

# MFA boundary trim: 2.905 median SigMOS vs. 2.922 energy trim

Fixed pilot · 100 recordings per source · 800 recordings per row except labeled filtered subsets

DF3 = DeepFilterNet3. Percentages indicate enhanced-audio blend; remainder is dry audio.

MFA: 710 alignments used; 90 review cases preserve untrimmed audio. Brute-force remains the earlier 17-variant comparison.
